

Environmental Management Statement

Teek It Ltd recognises its responsibility to minimise environmental impact and is committed to managing environmental performance in a proportionate and practical manner appropriate to the size and nature of the organisation.

Environmental considerations are integrated into day-to-day business activities, including materials sourcing, logistics coordination, office-based work and software-enabled services.

Environmental management arrangements include:

- Review and monitoring of environmental impacts associated with business activities, suppliers and logistics operations.
- Reduction of waste where reasonably practicable, including responsible use of materials and minimisation of unnecessary packaging.
- Efficient logistics planning to reduce transport-related environmental impact by consolidating deliveries and sourcing from appropriate suppliers.
- Responsible sourcing, encouraging suppliers to operate in accordance with relevant environmental legislation and good practice.
- Energy efficiency within office-based activities, including responsible use of electricity, IT equipment and remote working practices where appropriate.

Environmental performance is reviewed periodically, and improvements are implemented where reasonably practicable, particularly when activities, suppliers or operating practices change.

Teek It Ltd does not operate a formal ISO 14001 certified Environmental Management System; however, environmental management is maintained through proportionate internal controls, review processes and responsible business practices.

Responsibility: Managing Director

Review frequency: Annual or upon significant change

Date: 09/02/2026
